

The Saskatoon Nature Society welcomes members and non- members to their September monthly meeting featuring our guest speaker. It is free of charge. Information about the Society is available at www.saskatoonnaturesociety.sk.ca

Riskier Climate Times in the Prairie Provinces

Elaine Wheaton

Thursday, September 21 at 7:30 pm

W.P. Thompson-Biology Building, Rm 106

U. of S. Campus

Elaine Wheaton is an Adjunct Professor in the Department of Geography and Planning. Her research interests include climate change, its impacts, hazards and risks, our vulnerability to these and possible adaptations. She was awarded the 2007 Nobel Peace Prize Certificate for substantial contributions to the work of the Intergovernmental Panel on Climate Change, the Wolbeer Award for contributions to water resources research and the YWCA Science and Technology Award.
